Melco's Sustainability Commitment

At Melco, we are dedicated to providing not only a unique dining experience but also one that is environmentally responsible. Our sustainability initiatives encompass carbon neutrality, zero waste practices and of course, sustainable sourcing, all aimed at creating a better future for our planet.

Sustainable sourcing is at the heart of our dining experiences. Your meal today is crafted with the highest quality and seasonal ingredients, sourced responsibly wherever possible:

Sustainable Seafood: To help preserve marine ecosystems, we prioritize seafood certified by the Marine Stewardship Council (MSC), Aquaculture Stewardship Council (ASC), Global Aquaculture Alliance – Best Aquaculture Practices (BAP), the GLOBAL G.A.P Aquaculture Certification. We are continually striving to increase the amount of seafood we source sustainably.

Cage-free Eggs: The majority of eggs used in our recipes are cage-free reflecting our commitment to humane farming practices and reducing our environmental impact.

Plant-based Meat Alternatives: Our menu features plant-based alternatives, reducing reliance on animal agriculture and lowering our carbon footprint. These dishes provide delicious and sustainable options without compromising on taste.

Vegetarian: Contains no meat or seafood

We serve premium water with the additional benefit of reducing plastic. Water is purified on-site to eliminate transport and logistics, resulting in reduced emissions and waste.

Thank you for dining with us, where every meal is a step towards a more sustainable future!
